

EXTENSION ACTIVITY- DEPARTMENT OF PHYSICS

As part of extension activity, the dept. of Physics and dept. of Electronics together conducted an orientation programme on LED BULB ASSEMBLING. The aim of the programme was to create awareness in students and members from nearby residential area about the present energy crisis and the importance of finding an alternative. Some trained teachers and students gave practical training to the participants. The students assembled LED bulbs and sold it in nearby area and institutions, as an income generating activity.
